MY CHILD USES SOCIAL MEDIA, HOW CAN I PROTECT HIS PERSONAL DATA?

- Keeping your child's social media account confidential/subject to approval ensures that his personal data can be accessed by a limited and familiar environment.
- Turning off the camera cover and microphone, unless necessary, during the use of social media protects your child and you from possible violations.
- Checking whether a fake account/profile has been opened on behalf of your child and whether personal data has been shared without permission will eliminate possible dangers.
- It is helpful to inform your child that it is not appropriate to create an account/profile on behalf of someone else and to share other people's data without their permission.
