

CONSIDERATIONS FOR THE PROTECTION OF

CHILDREN'S

PERSONAL DATA

Considerations by "Children"

3

“YOU CAN PROTECT” YOUR PERSONAL DATA

• YOU MUST CREATE SECURE PASSWORDS

When choosing your passwords on the devices you use such as computers, phones and tablets, you should find passwords that others cannot guess and you should not share them with anyone.

• YOU MUST USE SEARCH ENGINES DESIGNED FOR AGE

You don't always have to use the same search engine or the one installed on the device. While searching the internet, you can choose the search engine features designed according to your age. So you can better protect your personal data.

• YOU MUST NOT USE ADULT SITES, APPS

Some sites/apps on the Internet are for adults only. You shouldn't use them. If you are in doubt as to whether the website or applications you use are suitable for you, you should consult an adult.

- **YOU MUST ADJUST THE SETTINGS OF THE INTERNET BROWSER YOU USE.**

In order to use the internet in a pleasant and safe way, you should adjust your internet browser (Firefox, Explorer, Google Chrome etc.) settings. You can also ask your elders for help. In this way, you can protect yourself from things that you should not encounter on the Internet.

- **IF YOU ARE FACED WITH AN UNCONDITIONAL SITUATION ON THE INTERNET, YOU SHOULD NOTIFY AN ELDER WHO YOU TRUST.**

When you encounter a suspicious or unusual situation while surfing the Internet, you should definitely notify an adult you trust.
